"WHEN THE FACTS CONCERNING A CONSPIRACY THEORY COME TO THE LIGHT OF DAY, IT IS NO LONGER A THEORY"

Greetings Fellow Watchers on The Wall,

I received an email from one of my lists pertaining to the GPS data in pictures taken by a smartphone or GPS enabled camera. (Thanks Abba Dean)

It is a nice feature if I want to see where I caught that big fish, or if I'm at a client's location and want to remember later where the picture of that piece of equipment was, I can easily see the location on a Google satellite map, takes a few seconds to come up.

BUT... I don't want to upload a picture of my grandchildren to Facebook and have a "bad guy" readily see my house, or their school, etc. So it is easy to turn the GPS feature of the camera on and off, but most folks don't even know this exists.

Here are some links to explain the technology and for FREE software to take advantage of this feature of Metadata embedded in pictures taken by GPS enabled cameras, including smartphones:

Here is the link Abba Dean sent which is an Action News story about how stalkers can find out where you live, your grandkids school, the park they play in, and more:

This link explains the Metadata tags in a picture taken by a smartphone or GPS enabled camera:

This is a link to download free software for viewing the Metadata in a picture:

This link explains more of the technology from the perspective of a stalker:

I took a picture of an almond on one of our trees. Took the iPhone to my PC, viewed the picture, right clicked the GPS data, invoked Google and the satellite map showed our place with a green arrow within 10 feet of the almond tree. It works. Sometimes it will be off by more feet than that, in one case one of the pictures of a client's piece of equipment resulted in being about 5 miles away from the real location.

I leave the GPS location service off until I need it. I use it for maps and leave the camera GPS off until I catch a big fish or something I want to remember.

Side note: the shadow government can still locate your phone if it is off and even if the battery is removed. Kind of like an RFID transponder chip, like when you go to Walmart and the checker doesn't deactivate the chip on your merchandise and the alarm sounds at the exit. WORK AROUND: (I tested it) A Faraday Bag:

<http://www.faradaybag.com/> This is what the cops use when they arrest someone and want to use their phone for evidence. This keeps anyone from doing a remote wipe of the data (there's an app for that).

ALUMINUM FOIL WORKS- I TESTED IT. Leave your phone on, wrap in foil, call it from another phone. It blocks the cell tower RF. DON'T LEAVE IT IN THE FOIL WHILE ON- will overheat. Turn it off then wrap it if you are bugging out. There are PAYGO phones, but Congress is trying to ban them. They are anonymous pre-paid phones.

So if you anticipate being an enemy of the state because you follow the constitution and they don't, carry foil in your car. However, if you have a newer car- the car has a "black box", whether you have "OnStar" or not. After 2015 all cars will have these. If you disable them the fine is hefty, plus possible jail time.

Because of this, and possible EMP or CME problems (search it) an older back up car is nice to have around (one that still has a distributor cap- pre-electronic and car computer) unless you are privileged to have a military hardened vehicle against EMP (Electro Magnetic Pulse/ Coronal Mass Ejections) (expected next big cycle end of 2012- 05.2013) Michio Kaku (U.S. Scientist of note) is concerned about the next cycle

It would have been very easy to prepare. Unfortunately the dark powers are more concerned about their own BUNKERS and running miles of fiber optic cable at Denver Airport for the same. If the grid goes down it could take years to repair. The best way to protect your equipment is to be disconnected from the grid. The technology for EMP circuit breakers exists but the public is unaware. That's what the FEMA Camps are for- the "general public". Those that are in a position to know and help have a seat in a bunker, so why alarm the "sheeple"?

IP ADDRESSES: they can be traced. Work around: VPN (protection against low level cronies)

Links:

Anonymous search engine: <https://startpage.com/>

VPN: (One example- \$6.75 a month)

<http://www.swissvpn.net/>

If you use a VPN and have a IP Address in Switzerland or other foreign country, I recommend Google Chrome browser. It translates the web pages to whatever language you need, one at a time or automatically- your choice. One plus when you search- the country specific information comes up in the ads and news... sometimes you can see what is going on "over there" or even in the U.S. that sometimes doesn't make the domestic US MSM (Main Stream Media). Chrome will open pages that Firefox sometimes won't... for whatever reason 😊

Malware and Firewall: <http://www.vipreantivirus.com> (the best I have found, they helped me with STUXNET for a client with Siemens PLC; good phone and email support)

Some are saying, "What are you worried about?! I have nothing to hide!". Well.. have you watched any Nazi footage lately on YouTube to see what the Jews went through during Hitler's reign of terror? Governments have killed more innocent people than any "domestic terrorists", to the tune of 250,000,000+ in recent history. It is not so much "our government" as it is the "shadow government" that GW Bush said does exist. Search it for yourselves.

The founding fathers are considered terrorists by the current powers that be. And don't forget, the battle is not against flesh and blood- it is the dark one who controls the despotic powers. Self defense is a natural right. Don't be ashamed of doing what you can to protect your loved ones and leave the rest to Yahweh! Just don't expect HIM to do it all, if you know better.

BOTTOM LINE:

<http://www.wordofyah.org/scriptures/>

Ephesians 6.10-

10 Finally, be strong in Yahweh, and in the strength of his might.

11 Put on the whole armor of Elohim, that ye may be able to stand against the wiles of the devil.

12 For **our wrestling is not against flesh and blood**, but against the principalities, against the powers, against the world-rulers of this darkness, against the spiritual hosts of wickedness in the heavenly places.

13 Wherefore take up the whole armor of Elohim, that ye may be able to withstand in **the evil day**, and, having done all, to stand.

James 4.7:

7 Be subject therefore unto Elohim; but **resist the devil, and he will flee from you.**

8 Draw nigh to Elohim, and he will draw nigh to you. Cleanse your hands, ye sinners; and purify your hearts, ye doubleminded.

9 Be afflicted, and mourn, and weep: let your laughter be turned to mourning, and your joy to heaviness.

10 Humble yourselves in the sight of Yahweh, and he shall exalt you.

"We hold these Truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are Life, Liberty, and the Pursuit of Happiness. . . **whenever any Form of Government becomes destructive to these Ends, it is the Right of the People to alter or abolish it, and to institute new Government**, laying its Foundation on such Principles, and organizing its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness."
